How to Pair a QXXN or QXBN QX Connect Series Tool

1. **Pairing to the INSIGHT Connect Bluetooth App**
   a. Wake the tool.
   b. When pairing to the Bluetooth App, hold the reset button until the LED turns yellow and then blue. Then release the button to put the tool into Bluetooth pairing mode.
      --Note: A ball point pen can be used to press the reset button.
   c. Put the App into Pairing mode (Ignore request for pressing the check button when 6 digit code appears on the tool, this is not applicable).
   d. The tool will pair with the App.

2. **Pairing to a INSIGHTqcx controller**
   a. Wake tool.
   b. When pairing to the INSIGHTqcx Controller, hold the reset button until the LED turns. Then release to put into pairing mode with the controller.
      --Note: A ball point pen can be used to press the reset button.
   c. Put the controller into Pairing mode.
   d. The tool will pair with the controller.
